

## Fashion Design Project

Do you have a student who loves to draw clothing and models? Here's a project that will give her a "day in the life" of a fashion designer as she easily creates styles on a printable template.

### Supplies:

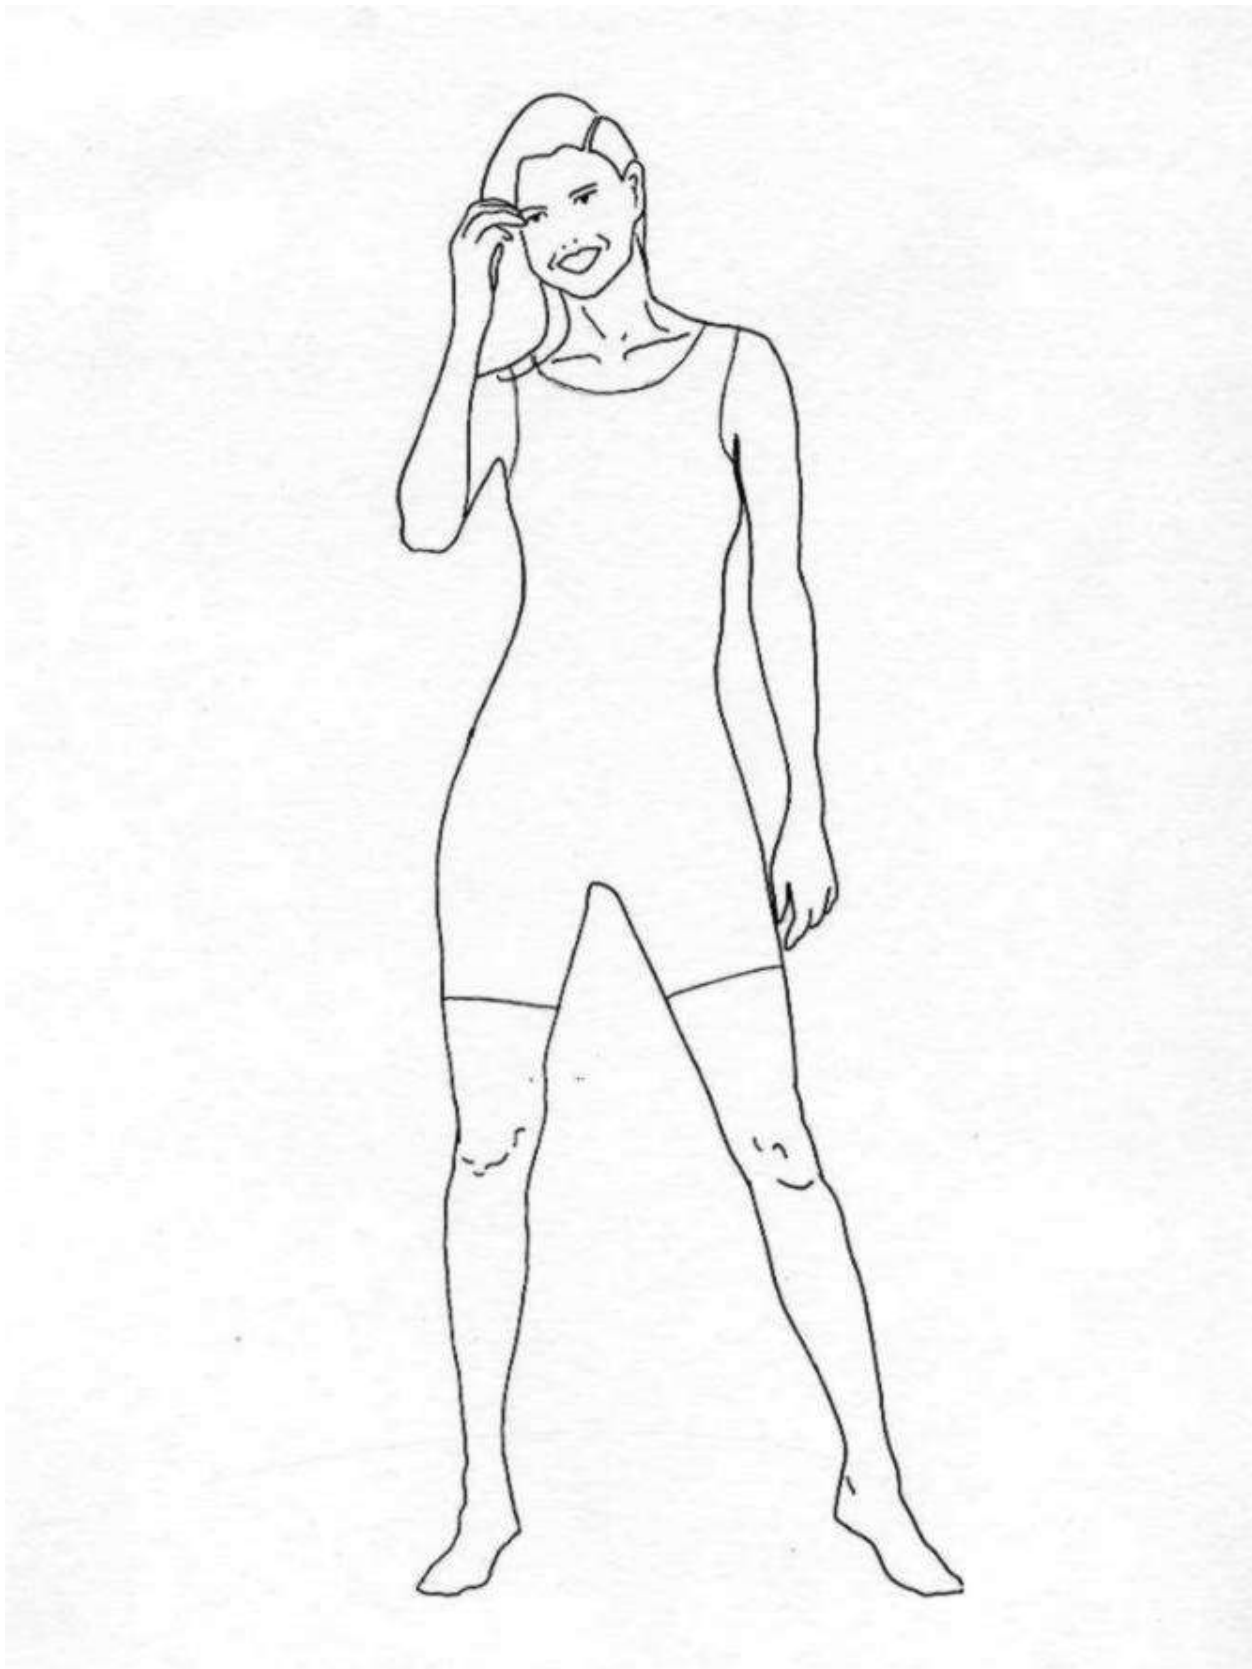

Tracing paper  
Clear tape  
Pencils with erasers  
Colored pencils  
Fine tip black marker (optional)

**Print off the following sheets, on the next pages of this document (one per student):**

Fashion Model Template (print on white paper)  
Fashion Styles Sheet  
Checklist

### Directions:

1. Tape a piece of tracing paper over the Fashion Model template.
2. Look over the checklist and decide which kind of outfit you will design. You will determine the season, formality, age group and price range of your outfit.
3. Using the Fashion Styles Sheet for inspiration, draw an outfit in pencil on the tracing paper. Don't forget accessories such as hats, shoes, belts, scarves and jewelry.
4. Now trace the parts of the model's body and face that are outside of the clothing.
5. Color everything in with colored pencils. Outline with a fine tipped black marker, if desired.
6. Remove the tracing paper and tape it onto tinted paper so that the white parts will appear.
7. Now create another one! Try a completely different type of outfit. Create a whole collection!

**"My Outfit" Checklist**

***Choose one from each section:***

**Season:**

Winter (heavy fabrics, bold colors, off white)

Spring (medium weight fabrics, pastels, pure white)

Summer (light fabrics, bright colors, pure white)

Fall (medium weight fabrics, muted colors, off white)

**Time of Day:**

Day (business or casual wear)

Evening (dressy or formal wear)

**Occasion:**

Casual

Semi-formal

Formal

Wedding!

**Pieces:**

One

Two

**Age of customer:**

Juniors (teenagers)

Ladies (women)

**Cost of garment:**

Budget (Walmart, Target)

Moderate (Kohl's, Carson's)

High end (Lord and Taylor, etc.)
